

## **Nicomatic North America Moves Into New Design & Manufacturing Facility (2023/02/01 03:58:07am)**

On May 22nd, 2018 Nicomatic North America relocated to a new design and manufacturing facility. The new space expands their workspace by 10,000 square feet. Nicomatic strives to stay close and accessible to their customers, visitors can easily find the new building at 450 Progress Drive in Horsham, Pennsylvania located just a few minutes from Pennsylvania Turnpike Willow Grove Exit 343 and Horsham Air Guard Station.

Construction was completed by [Kimmel Bogrette](#), a well-respected, award-winning design firm, as the architecture company and [Penntex Construction Company](#) was selected to renovate the new facility.

The additional square footage will bring an expanded research & development area, larger testing capabilities, an on-site gym, seven conference rooms, and a relaxation room to promote employee health.

Employee collaboration and engagement will be enhanced with an open floor plan to promote open lines of communication and further develop our liberated leadership culture.
