REACH SVHC STATEMENT COMPLIANCE

Last update: November 2026.

NICOMATIC **guarantees** that its products listed below follow the Registration, Evaluation, Authorisation and Restriction of Chemicals European Regulation 1907/2006 about Substances of Very High Concern (253 substances in the "Candidate list") including Annex XIV (Authorisation List of 59 substances) and Annex XVII (79 substances restricted under REACh) in **its last update - May 2026.**

- High Performance Micro Connectors *(CMM, DMM, EMM, AMM, OMM Microflex, Matr'YX, Micro-D)*
- I/O Connectors *(Micro-D, Optimus)*
- Connectors for Flexible Circuits & PCB *(Crimpflex housing, FMM, PCB Connectors, SMD terminals, Discrete Wire)*
- FFC Cable & Jumpers *(Crimpflex Jumper, FFC Cable)*
- Metal Domes & Components *(Switch'Air 4-legged, Round & Double Radius, Domes Arrays, SMD Lays)*
- Custom Solution *(Rack & Panel, Plastic Connectors, Metal shell connectors)*
- Optical Rugged Solutions *(Fiber Optic Harnessing, Optical DMM, Vita 66)*

With our ecosystem, our suppliers and our clients, NICOMATIC is committed to:

- Share full transparency by giving a maximum of visibility regarding substances used in our products.
- Inform on regulation updates impacting our products.
- Provide dedicated support to our customers.

According to article 33 of the REACH Regulation, any supplier of article with SVHCs in a concentration above 0.1% weight by weight shall provide enough information to allow safe use of the article including, as a minimum, the name of that substance.

As far as we know, following our collection process, which provides us with the most comprehensive view of our supply chain, some of our products are concerned by the following SVHC (see table below).

NICOMATIC is currently working to sustain its standards and can share its roadmaps on:

- Contact copper alloy without lead.
- Technical solutions without the use of Cadmium CrVI coating.
